

Palmer Electric completes tenant improvement at Dynetech Centre

WINTER PARK, Fla., March 11, 2009 — Palmer Electric Co. has completed its tenant improvement contract with Turner Construction Co. for the electrical wiring and fire alarm system for Dynetech Corp.'s 40,000-square-foot corporate headquarters in its namesake, the 32-story Dynetech Centre in Orlando, Fla. Baker Barrios Architects of Orlando provided architectural design for the tenant improvements.

Palmer Electric also provided electrical contracting for the 600,000-square-foot building completed last year by developer, Lincoln Property Co.
